SUMMARY

Full-stack developer: Typescript, Javascript, PHP, and Java. Learning React Native.
Experienced in UI development, React js, and project coordination.

SOFTWARE DEVELOPMENT EXPERIENCE

Full-Stack Developer (Freelance) | Zephyr Pixels | Remote | 08/2021 - Present

E-commerce Site Development for Kootenai Organics

- Developed a Progressive Web App with NextJs with service workers providing offline usage for local cannabis dispensary, Kootenai Organics. The site offers retail and wholesale B2B purchasing.
- Leveraged Sanity as a headless CMS to provide site content, blog posts, and as a CRM. Limited access to the company wholesale pages via Sanity and JWT tokens.
- Using the React-email library created custom transactional emails. Additionally I created integrations with Indica Online, Google Maps, Resend Email.
- Utilized Sanity as single source truth for additional marketing sites resulting in 50% decrease in marketing and development costs.

Hufford Homestead Website Development

- Spearheaded the design and development of an ecommerce web app for Hufford Homestead, a small organic farm looking to sell direct to consumers using Nextjs, Sanity, and Tailwind CSS.
- Implemented strategic online marketing strategies and user-friendly design, resulting in a 35% increase in monthly revenue since the site's launch.

Cost-Saving Consulting and Strategy for Private Label Brands and non-profits

- Partnered with consulting firm Newton-X and provided consulting services to Fortune 100 companies.
- Contributed over \$4200 in volunteer labor and support to the non-profit 'Climate Smart Missoula', enhancing the website's functionality and accessibility.

Software Engineer | JUNO | Remote | 06/2022 - 11/2022

- Worked closely with product and design team to decrease turnaround time on UI development by over 30% using Figma, React, Docker Typescript, PHP, Framer motion, OpenTok, WebRTC, Jira.
- Integrated PubNub for user notifications on Desktop and mobile applications resulting in increased user engagement.

SKILLS & TECHNOLOGIES

Javascript | React | Redux | Docker | Java | Tailwind | CI/CD | Typescript | Framer | GraphQL | Liquid
HTML/CSS/SCSS | MySQL | Markdown | Jira | SQL | PHP | Git | Nextjs | Shopify | ASP.NET | Cordova

ADDITIONAL WORK EXPERIENCE

Claims Examiner | Allegiance | Remote | 02/2014 -12/2021

- Oversaw the implementation and administration of clients policies in regards to employee benefits. Process claims for 3000+ members across 6 employer groups.
- Monitored and protected the client's financial health by reporting observable hurdles and high impacts and issuing refunds and additional payments.

Advanced Resolution Manager | DIRECTV | Missoula | 02/2014 - 12/2018

- #1 Agent of the Month nationally, achieving no replacement claims for multiple months in a row.
- Managed a caseload of 40-50 customers via phone and email in an effort to educate customers and drive retention. Coordinated with local field offices to plan and schedule work orders to ensure technicians' completion.
